

The huge internal beam of the 420 makes it an ideal safe, fun and manageable family boat or a versatile and tough craft for work or rescue boating. With 4 unique layout options, the 420 is a truly adaptable craft for any application.

The 420 is the most stable and roomy boat on the market for its size. Unique boarding platforms on the stern provide a safe and easy method of entry. The generous flat floor provides a blank canvas for console, cabin and seating options. A host of accessories such as additional grab handles, rod holders and many more are available. The versatility of the M.R MAC range means the boat can be tailored to suit your exact requirements.

#### CE Details

Design Cat	C, Inshore
Max rec. Load	500kg
Max # of People	5

Virtually indestructible, un-sinkable and maintenance free, Marine Revolution boats are your first choice in safety and durability. Rotationally moulded in top quality virgin grade polyethylene thermoplastic, Marine Revolution boats offer unrivalled hull thickness, positive buoyancy and a hull up to five times stronger than fibreglass. The Polyethylene contains powerful ultra violet stabilisers designed to survive in harsh environments. It is impervious to osmosis, corrosion, rot and rust and has no gelcoat or paint to maintain. A range of colour options for the hulls and cabins are available.

Marine Revolution boats also have the distinct advantage that they are fully recyclable. An important feature in a world where we are conscious of our impact on the environment.

The use of computer controlled equipment and the ability to mould in one-piece, double skin, without any structural stress points is a unique process. This process ensures quality and consistency is maintained at the highest level.
